### **Rolta Helps Safran Migrate Safran Project to SAP HANA® Platform**

**Reading, UK:** Rolta today announced that it was selected by, and has been working with, Safran Software Solutions, a leading provider of project planning, scheduling and risk management solutions. Rolta has helped migrate Safran Project, Safran's unified project and risk management solution, to run on the SAP HANA® platform.

Rolta's automated migration solution, Rolta SmartMigrate™ for SAP HANA, helps make the migration process quick and easy, and delivers consistent results. The solution also helps ensure that customers are able to realise the considerable benefits of upgrading to SAP HANA rapidly. Rolta is an SAP partner and offers its migration solution in support of SAP's work to migrate customers' software solutions to the SAP HANA platform.

Ravi Pandey, president of Rolta in Europe commented: "Rolta is pleased to be supporting Safran Software Solutions in its adoption of the SAP HANA platform for Safran Project. We are delighted to bring our specialist skills and migration expertise to this project." Safran Project 5, now certified by SAP as powered by SAP HANA, enables customers in project-and asset-intensive industries to manage projects strategically and with control over project outcomes. SAP HANA revolutionises the speed of data processing for reporting and analytics, making real-time analytics possible.

"We are seeing an increased demand from customers for adoption of the SAP HANA platform, and we are pleased that Rolta has been able to help us realise the benefits of SAP HANA so smoothly," said Dean Edmundson, CEO Americas, Safran Software Solutions. "Through our partnership with SAP and our solution now powered by SAP HANA, we will help empower our customers to more strategically manage projects. With real-time project performance monitoring, project challenges can be identified and resolved faster – which can directly affect project performance and corporate margins."
