### **ROLTA Recognized with Oracle Excellence Award for Specialized Partner of the Year**

**Alpharetta, GA** – October 01, 2012 – Rolta, a leader in providing IT consulting, technology and managed services to enterprise organizations, has received a prestigious "Oracle Excellence Award" for its work supporting the data management needs of the Council for Opportunity in Education (COE)..

This is the eighth recognition Rolta has received from Oracle, after previously being honored with two 'Partner Solution of the Year' awards and five 'Titan' awards.

"Rolta's extraordinarily high level of expertise and experience implementing Oracle solutions continually enables us to deliver outstanding support to our clients, and we're honored to be recognized for the work our teams do," said Jason Cory, president of Rolta North America. "It's this kind of award-winning, client-benefitting achievements that our highly skilled consultants and specialists deliver each and every day in all of our client engagements."

The work Rolta was recognized for was the development of a custom data-capture and business intelligence solution to facilitate COE's "GO College" program, through which minority and low-income high school students receive expanded college access services to help them enter and succeed in college. The COE recognized that tracking and analyzing key student data would be essential to its goals of improving college enrollment. However, while much of the data needed to make these decisions existed, it was typically distributed among students and school personnel in disparate data sources. Moreover, the ability to easily look at trends or rapidly create reports was non-existent.

Leveraging Rolta's expertise with Oracle Database and Oracle Warehouse builder, Rolta built a data warehouse that merges data from three disparate source systems. Rolta also built a 150+ page APEX Web application for college coaches to manage student interactions, and developed a reporting and analysis tool utilizing BI Publisher and Oracle Business Intelligence Answers and Dashboards.

College coaches, high school principals and COE administrators now have immediate access to integrated data from disparate system's including school district reporting, the National Student Clearinghouse and College Coaching data. Data that used to take more than a week to compile is now available in seconds. Presented in intuitive dashboards and reports, COE partners are able to make data-driven decisions, better guiding student progress, tracking exceptions and helping low-income and first-generation students prepare for college success.

"Rolta did a phenomenal job furthering our thinking about what a data tool could really do and how we could help our school partners in the most meaningful ways," said Dr. Stephanie Miller, senior data analyst for COE. "The power that comes from giving our partners access to data from multiple systems all in one place cannot be overstated. It's been exciting to see data come to life in such a powerful way, and we look forward to expanding the solution even further."

#### **About Rolta**

Rolta is a leading provider of innovative IT solutions for many vertical segments, including Utilities, Governments, Transportation, Process, Power, Banking and Insurance. These enterprise level solutions are built around Rolta's intellectual property and domain expertise to offer unique business intelligence for impactful insights for effective decision making. Rolta's solutions framework includes Rolta Geospatial Fusion™, a suite to integrate disparate spatial and business data; Rolta OneView™, a BI solution for operational excellence; and Rolta iPerspective™, a unique platform for SOA and "Cloud" enablement. Rolta's intellectual property repository contains cutting-edge software for mapping and earth sciences, providing the foundation for Defense and Homeland Security solutions including C4ISTAR information systems, Military Communications, Digital Soldier, and Vehicle Systems. Rolta is a multinational organization headquartered in India, which has executed projects in over 40 countries. Rolta has a countrywide infrastructure and international subsidiaries across the globe. Forbes Global ranked Rolta amongst the "Best 200 under a Billion" four times in six years. The Company is listed on the Bombay Stock Exchange and National Stock Exchange in cash and F&O segment, and forms part of various indices on BSE/NSE. The Company's GDRs are listed on the Main Board of London Stock Exchange.
