Rolta's Q1 FY-10 Consolidated Revenue Grows 5.3% Q-o-Q

Mumbai - Rolta India Limited, one of India's leading IT companies, specializing in Enterprise Geospatial Information Solutions, Defense, Homeland Security (EGIS), Enterprise Design & Operation Solutions (EDOS), and Enterprise IT Solutions (EITS), today announced unaudited financial results for the quarter ended September 30, 2009.

FINANCIAL HIGHLIGHTS

- Consolidated Revenue for Q1 FY-10 at Rs. 350.49 crores (Rs. 3504.9 Million) against Rs. 332.70 crores (Rs.3327.0 Million) in Q4 FY-09, registering a Q-o-Q growth of 5.3%.
- Consolidated EBITDA for Q1 FY-10 at Rs. 125.48 crores (Rs. 1254.8 Million) against Rs. 112.48 crores (Rs. 1124.8 Million) in Q4 FY-09, registering a Q-o-Q growth of 11.6%.
- Consolidated Net Profit for Q1 FY-10 at Rs. 56.12 crores (Rs.561.2 Million) against Rs. 51.20 crores (Rs. 512.0 Million) in Q4 FY-09 excluding profit on repurchase of FCCB's, registering a Q-o-Q growth of 9.6%.
- During the quarter the company has renamed its business segments to reflect the enterprise nature of its business and the innovative solutions available from these business segments. The business segments have been renamed as:
 - Geospatial/Defense, Homeland Security(GIS) to Enterprise Geospatial Information Solutions (EGIS);
 - Engineering Design Services (EDS) to Enterprise Design & Operation Solutions (EDOS);
 - Enterprise Information & Communication Technology (EICT) to Enterprise IT Solutions (EITS).

Commenting on the results, Mr. K. K. Singh, Chairman and Managing Director, said: "In these challenging times, Rolta has been able to perform reasonably well with both consolidated revenues and consolidated PAT growing. Our continued focus and exceptional ability of providing innovative solutions that extract meaningful insights from information and provide a deep impact in our customer environments, positions us uniquely to take advantage of the expected economic revival".

Corporate Highlights:

The Company has transformed its business from services centric to a solutions oriented model. This has enabled ROLTA to operate at a much higher level in the value chain. The portfolio of offerings now includes ROLTA's own intellectual property (IP) as part of the solutions for various verticals. This approach is steadily building up a base of licensed IP that would result in ever increasing annuity as compared to the traditional services model.

The Company has undertaken an exercise to re-brand itself in a manner that reflects the new business model, so as to be seen as a high-caliber provider of enterprise level integrated solutions. This effort is starting to bear fruit globally, and ROLTA is now being increasingly invited worldwide for consultation for systems integration and cross-functional solutions.

To effectively develop, sell and support innovative solutions, the Company continues to hire experienced management and highly-skilled technical staff. ROLTA was ranked at the #1 position in Human Relations (HR), and at the 3rd position in overall ranking in the 2009 DATAQUEST survey of Best Employers in the IT sector.

OPERATIONAL HIGHLIGHTS:

Enterprise Geospatial Information Solutions (EGIS)

During the quarter, the Company focused on further enhancing & deploying Rolta Geospatial Fusion™, its unique solution for enabling fusion of various disparate geospatial and non-spatial databases and software applications, for specific verticals, like utilities, economic development, asset management, etc. Rolta continues to win Orders in India, North America, the Middle East and Africa for these solutions.

The Company also launched state-of-the-art solutions for Earth Science applications. These solutions are based on an exceptional combination of Rolta's existing repository of intellectual property and key technologies acquired

at the source code level, from various companies worldwide. Rolta Earth Science solutions provide some of the most advanced Geo-Imaging and Photogrammetry capabilities, and are being actively used for mission-critical applications, by hundreds of users, across the country. These advanced and user friendly technologies seamlessly integrate with the extensive repository of Rolta Geospatial solutions, e.g. Rolta Geospatial Fusion™, and are complementary to leading GIS platforms.

The Company continues to maintain its leadership in the Indian Defense Geospatial market. By working shoulder-to-shoulder and being in close proximity support with its customers, in conflict zones and extremely demanding conditions, the Company along with its JV with Thales (RTL), continues to gain deep insights and deliver innovative solutions for Defense, Homeland and Maritime Security. These mission-critical solutions have a very strong impact in empowering the Armed Forces and Security Agencies in making the world a safer place. With India looking to rapidly modernize its Defense & Security Agencies, the Company is very well positioned to address large opportunities resulting from the significantly increased budgets for Defense, Homeland & Maritime Security.

Enterprise Design & Operations Solutions (EDOS)

ROLTA continues to further develop and enhance its innovative solutions for plant operations. The Rolta OneView™ solution has been deployed at additional large refining facilities, worldwide, and is providing significant benefits to the Company's customers. For example, the reliability index is one of the most important KPIs in any plant. Achieving even a 1% improvement in plant reliability can increase production by millions of dollars while at the same time, plant operational efficiency is improved. There are hundreds of other KPIs that can affect plant operations. This is the world of Rolta OneView™. A world in which expensive downtime is reduced and operational processes are improved because managers have access to the convergence of critical information in a structured way to make timely and intelligent decisions.

The Company continues to work on large engineering projects, some of them for the world's largest and most complex plants of their type. The Company's JV with the Shaw Group, - Shaw Rolta Limited continues to make good progress. The Company is positioned well to take advantage of opportunities opening up in the Indian oil & gas, conventional & nuclear power sector, by leveraging the strengths of its JV partner, The Shaw Group Inc., USA, a world leader in this field.

Enterprise Information Technology Solutions (EITS)

Rolta continues to strengthen and build its EITS portfolio and capabilities to address various requirements, like Business Intelligence, Enterprise Applications, Core Database Foundation as well as Data Security and Service Management. The Company leverage best-of-breed technologies, from the Company's own IP repository, and those of its partners and the Company's comprehensive suite of services. Rolta Solutions and middleware tools permit integration across layers of information and data, thereby eliminating the challenges associated with standalone data silos that emerge within enterprises. For example, the ROLTA iPerspective™ solution (patent-pending filed in US) innovatively brings data integration to life and provides customers with a rapid return on investment due to a shorter implementation time and an agile approach to managing transition.

About Rolta:

Rolta is an Indian multinational organization that has executed projects in over 40 countries. Rolta serves these markets by providing innovative solutions in Enterprise Geospatial Information Solutions (EGIS), Defense & Homeland Security; Enterprise Design & Operations Solutions (EDOS); and Enterprise Information Technology Solutions (EITS). Rolta, through its joint venture with the Shaw Group Inc. USA - Shaw Rolta Ltd. - provides comprehensive Engineering, Procurement and Construction Management (EPCM) services to meet turnkey project requirements of power, oil, gas and petrochemical sectors. Rolta's joint venture with Thales, France - Rolta Thales Ltd., develops and provides state-of-the-art C4ISTAR information systems, Military Communications, Digital Soldier and Vehicle System solutions, covering the entire "sensor to shooter" chain, under transfer of technology from Thales. Rolta, headquartered in Mumbai, employs over 4500 professionals with countrywide infrastructure and international subsidiaries across the globe. The Company has benchmarked its quality processes with the world's best quality standards. Rolta is accredited with the prestigious BSI ISO/IEC 27001:2005 certification, the ultimate benchmark for information security; the BSI ISO/IEC 20000-1:2005 IT Service Management Standard; and the Company has been assessed at Maturity Level 5 of the Capability Maturity Model Integrated CMMI SW version 1.1 in 2006. The Company is now engaged in upgrading to Maturity Level 5 of version 1.2. Forbes Global has ranked Rolta amongst the "Best 200 under a Billion" for four times in six years. Rolta has been included in the S&P Global Challengers List™ 2008, by Standard & Poor's. This List identifies 300 mid-size companies worldwide that have shown the highest growth characteristics along dimensions encompassing intrinsic and extrinsic growth. ROLTA

shown the highest growth characteristics along dimensions encompassing intrinsic and extrinsic growth. ROLTA was ranked at the #1 position in Human Relations (HR), and at the 3rd position in overall ranking in the 2009 DATAQUEST survey of Best Employers in the IT sector. The Company is listed on the NSE in cash and F&O segment and forms part of CNX IT, NIFTY Midcap 50 and CNX 500 indices. The Company is also listed on BSE 'A' group and forms part of BSE Midcap, BSE 200, BSE 500, BSE IT and BSE TECK indices. The Company's GDR is listed on the Main Board of London Stock Exchange and its FCCB's are listed on the Singapore Stock Exchange.
