

Integration of product with Oracle EBS

Industry: IT - Systems Software

Location: Farmington, CT

Summary

The client was a company that developed enterprise job scheduling and workload automation solutions for the world's most critical IT infrastructures.

The organization's flagship product, is used by more than 800 organizations worldwide, including several Fortune 500 companies. The client approached Rolta as the product was lacking integration with Oracle EBS for isolated submission and scheduling of Oracle EBS Jobs (Request).

Details of Rolta's solution

- Integrated product with Oracle EBS (11i, R12) seamlessly
- Product Specific integration was put forward, compared to Application Specific (Oracle EBS 11i, R12)
- Flexible architecture was recommended to formulate ease in maintenance and support

Impact

- End users were enabled with the capability of submitting Oracle EBS Jobs (Request), leveraging product features for scheduling and submission

The product was able to provide the following benefits with this integration:

- Submit & Cancel Request enabled
- Capturing Output & Log Files enabled
- Easy monitoring of Request Status enabled

About Rolta
