Integration between Imagenow and Oracle ERP

Industry: Automobile
Location: Chicago, US

Summary

The client was a renowned automobile company that was into repairs, spare parts sales and replacement of all kinds of automobile spare parts. They approached Rolta for the automation of their high volume of supplier invoices, using smooth integration between ECM solution and Oracle ERP.

Details of Rolta's solution

- Use of perspective's Imagenow system to scan a high volume of supplier invoices (approximately 1000 invoices per day)
- Design and development of integration between Imagenow and Oracle ERP
- Complex interface development for payable invoices using a standard payable interface program
- Enabled strong exception handling through report and error invoice correction form
- Rolling out solutions for US and Canada Units

Impact

- Reduction in manual efforts
- High level of automation of supplier invoicing workflow

About Rolta
