

Oracle EBS R12 Upgrade for an Airline

Industry: Airlines

Location: Chicago, IL

Summary

The client for this project operated the world's most comprehensive global route network, including world class international gateways to Asia and Australia, Europe, Latin America, Africa and the Middle East from virtually anywhere in the United States. The organization faced a business risk of continuing with a de-supported version of Oracle EBS, and was also concerned with the high maintenance cost. Rolta helped the organization upgrade to a newer system while supporting key processes, to bring multiple benefits like increased performance and lowered costs.

Details of Rolta's solution

- Oracle EBS upgrade from version 11.5.10.2 to 12.1.3 (Financials)
- Conducting a technical review of 11i and R12 environments, validating compatibility between versions of R12, database and operating systems
- Development and deployment of RICE Components (Interfaces, Conversions, Extensions, Reports, Forms)
- Implementation of new modules like Oracle Payment and Sub-ledger Accounting
- Conducting remediation work for more than 300 objects in financials

Impact

- Effective management of systems globally to lower costs and increase performance
- A flexible, centralized, global accounting structure

About Rolta

At Rolta, we envision a better future, and then design technology to create that future. Our innovative IT solutions span various verticals, including Utilities, Transportation, Process, Power, Banking and Insurance. Through our cutting edge software for mapping and earth sciences, we also provide a complete array of solutions for Defense and Homeland Security, including C4ISTAR information systems, Military Communications, Digital Soldier and Vehicle Systems. Our team diligently works to exceed our customers' expectations, and has successfully executed strategic projects in over 40 countries.
