Integration of Ticketmaster Business Flow with existing EBS

Industry: Music
Location: Miami, Florida

Summary

The client for this project was one of the world's leading live entertainment and e-commerce company. Their concerts produced over 20,000 shows annually enabling over 800 advertisers to tap into 200 million consumers. The client was seeking the migration of Ticketmaster US and UK onto an existing Oracle platform. Rolta offered a solution to expand the Oracle EBS financial architecture to include Ticketmaster UK operations, and leveraged the global development and QA team.

Details of Rolta's solution

- Design of complex interfaces for the integration of Ticketmaster business flows with the existing EBS 11.5.10 (GL, AR, AP, FA, CM)
- Oracle EBS financial architecture expanded to include Ticketmaster UK operations
- 28 complex interfaces designed to integrate Ticketmaster business flow with existing Oracle EBS 11.5.10 (GL, AR, AP, FA, CM)
- Leveraged global development and QA team

Impact

- Optimization of order to fulfillment cycle with R12 new features
- Use of Global Development model with 50% of offshore component
- Eliminated risk of application de-support notice (11i)

About Rolta

At Rolta, we envision a better future, and then design technology to create that future. Our innovative IT solutions span various verticals, including Utilities, Transportation, Process, Power, Banking and Insurance. Through our cutting edge software for mapping and earth sciences, we also provide a complete array of solutions for Defense and Homeland Security, including C4ISTAR information systems, Military Communications, Digital Soldier and Vehicle Systems. Our team diligently works to exceed our customers' expectations, and has successfully executed strategic projects in over 40 countries.
