

Oracle EBS R12 Upgrade

Industry: Telecom

Location: Miami, Florida

Summary

The client for this project was one of the largest cellular phone companies in the world, with over 200 million phone subscribers. It was the largest “no contract” cellular phone company in the United States. They approached Rolta to help upgrade its Oracle EBS, as it was risky to continue working with a de-supported version. They were also concerned about the high maintenance due to the heavily customized order to fulfillment cycle.

Details of Rolta’s solution

- Oracle EBS upgrade from version 11.5.10 to 12.1.2 (Financials, Purchasing, Supply Chain)
- Leveraged R12 new features to eliminate existing customizations
- Customization discovery using `Rolta EBS Implementation Manager Tool`
- Use of best practices to re-write customizations
- 150+ custom business objects re-worked with the R12 architecture

Impact

- Optimized order to fulfillment cycle with R12 new features
- Use of Global Development model with 50% of offshore component
- Eliminated risk of application de-support notice (11i)

About Rolta

At Rolta, we envision a better future, and then design technology to create that future. Our innovative IT solutions span various verticals, including Utilities, Transportation, Process, Power, Banking and Insurance. Through our cutting edge software for mapping and earth sciences, we also provide a complete array of solutions for Defense and Homeland Security, including C4ISTAR information systems, Military Communications, Digital Soldier and Vehicle Systems. Our team diligently works to exceed our customers’ expectations, and has successfully executed strategic projects in over 40 countries.
