

Safety & Security

ROLTA

Homeland and Maritime Solutions for Safety and Security

Critical Infrastructure Protection

“Innovative fusion of world class technologies for creating safer world”

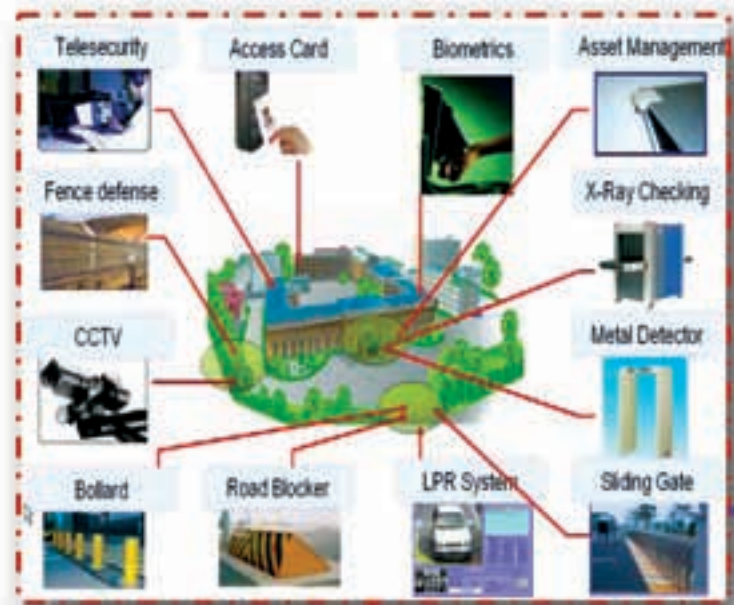

Comprehensive Solution for Critical Infrastructure

Rolta's safety and security solutions provide state of the art technology for high reliability command and control centers, tasked with safeguarding people, property and assets. These solutions act as a force multiplier by enabling leading edge decision support system within a spatially enabled environment.

Rolta's innovative mission critical applications are ready to deploy for continuous operation in support of decision makers responsible for life safety, emergency management, and security.

The Rolta solution for Critical Infrastructure Protection is built around "Rolta Command and Control", "Rolta OnPoint" and Rolta iPrespective" solutions which are Rolta's core offerings in this domain. These products are part of large repository of Rolta's own intellectual property (IPR) which comprises of numerous software products and industry specific solution frameworks.

The solution framework supports collection, fusion and analysis of data from variety of security sensors like CCTV surveillance, Access Control, Perimeter Security, 2D & 3D maps etc., and presentation of the Common Operating Picture in a geospatial context, to provide users with enhanced actionable situational awareness for Asset Protection and Emergency Response including Disaster Management.

True Collaborative situation awareness

Protection

Mission :

- Safety and security of critical Infrastructure
 - Harbours
 - Oil and Gas Infrastructure
 - Power plants
 - Chemical factories
 - Nuclear installations
- Protect assets and people
- Prevention of intrusions / unauthorized entry / exit
- Fire protection
- Leakage prevention in Gas / nuclear plants

Challenges:

- Land and waterside open areas
- Scattered facilities and responsibilities
- Complex flow of people, goods and vessels
- Unapproachable boundaries
- 24 x 7 operation of plants
- Numerous events to monitor

Customer Benefits:

- Integrated solutions from detection to response
- An intuitive common operation picture.
- Rule based collaborative situational analysis.
- Real time focused information access.
- Event generation and tracking.
- Standard Operating Procedure based tasking.
- Correlation with intelligence data
- Increased resource allocation for greater operational efficiency and cost savings

s for Critical Infrastructure Protection

About Rolta

Rolta is a leading provider of innovative IT solutions for many vertical segments, including Utilities, Governments, Transportation, Process, Power, Banking and Insurance. These enterprise level solutions are built around Rolta's intellectual property and domain expertise to offer unique business intelligence for impactful insights for effective decision making. Rolta's solutions framework includes Geospatial Fusion™, a suite to integrate disparate spatial and business data; Rolta OneView™, a BI solution for operational excellence; and Rolta iPerspective™, a unique platform for SOA and "Cloud" enablement. Rolta's intellectual property repository contains cutting-edge software for mapping and earth sciences, providing the foundation for Defense and Homeland Security solutions including C4ISTAR information systems, Military Communications, Digital Soldier, and Vehicle Systems. Rolta is a multinational organization headquartered in India, which has executed projects in over 40 countries. Rolta has a countrywide infrastructure and international subsidiaries across the globe. Forbes Global ranked Rolta amongst the "Best 200 under a Billion" four times in six years. The Company is listed on the Bombay Stock Exchange and National Stock Exchange in cash and F&O segment, and forms part of various indices on BSE/NSE. The Company's GDRs are listed on the Main Board of London Stock Exchange and its FCCBs are listed on the Singapore Stock Exchange.
