

## e-Governance

Enterprise GIS Solutions for e-governance act as a crucial ingredient in accomplishing the critical mission of bringing the benefits of information and communication technology at the last mile to ensure transparent, timely and hassle free delivery of citizen services at affordable cost.

Rolta Geospatial Fusion™ solution for municipality and e-governance brings to the table an enterprise approach with specialized suite of solutions, specifically designed for distributed data sharing, analysis and smooth coordination across various departments of municipal organizations as well as a user friendly graphical interface for the citizens, allowing them to keep track of their requests and grievances online. Rolta's cost-effective GSF solutions for municipal government will go a long way in supporting municipal bodies to make efficient strategic and operational decisions.

Rolta Geospatial Fusion™ provides integration of operational data across Tax Assessment, Proposed Project Management, Property Registration, Transportation, Solid Waste, Water and Sanitation Management to identify root causes for revenue loss and track the services by account and geography. Rolta's state of art solution helps to achieve reduction in loss revenue, efficient delivery of services and alignment of the revenue planning processes with the operating context of the business.

Rolta Geospatial Fusion™ allows officers to see critical information, assess current and historical tax assessments, prioritize projects and workforce activities through an intuitive, web-based interface that seamlessly integrates GIS and operational Intelligence platforms for improved performance .

### Key Features

- Provides enterprise-wide secured access to GIS dataset and different business systems
- Seamless integration of spatial and non-spatial data from disparate databases
- Attribute Based Security (ABS)
- Multilingual support
- Multiple view of data through web based interface
- Searches based on spatial and other integrated business attributes
- Complete web based mapping and GIS solution
- Administration console
- User interface customization

### Benefits

- Provides single point of access to all Municipality related business processes.
- Supports Municipal revenue improvement
- GIS based tracking of new and existing projects
- Enhance Solid Waste management System by using GIS based Vehicle Tracking system
- GIS integrated grievance statistics/ KPIs
- Ensures efficient delivery of services to citizens
- Overview of property tax ranges over the entire town
- Minimized manual intervention, enabling the staff to focus more on services
- Reduce operation and maintenance turnarounds
